PROJECT

We handle our projects with high consideration. Starting by collecting customer desires and needs information; to shipping the products to the customer's hands.

Project Timeline

Adjusted the room to the customized products; it could be a couple of weeks or months. However, we will not exceed the maximum limit of one year project.

Budget

Adjusted all costs to the design, the type of the furniture materials, and the theme used.

We always prepare a backup plan for either every delay possibility or other obstacle while producing or shipping the product.
